An Animated Debate Over Newspapers.

Three Hundred Dollars Worth Time Consumed in Discussing a Two Hundred Deliar Appropriation.

Correspondence of The Bee.

HOUSE-FRIDAY AFTERNOON. Lincoln, January 6.-The Democrats had been rocked to sleep to their own tune of "Canvass the until half-past one. Prior to the reading of the message by the Governor's secretary, a resolution providing that "the Secretary of State be instructed to furnish each member of the House with ten copies of daily papers, to be selected by the members," was offered. It came up for final action this afternoon. The entire afternoon was occupied in the discussion of this question, and many things, both grave and witty, were spoken.

Ewen, of Nemaha, objected on the ground that such an act on the part of the house would be uncon-

Gibson, of Douglas wanted to insert four, instead of ten. He would vote against the resolution in any form, but if the house would adopt one of two evils, he favored the

Neville, of Douglas, insisted that on constitutional grounds, the house had no right to pass such a resolu-tion. No perquisites were allowed save mileage and per diem. It only remained for members to interpret the meaning of the word perquisites. He also delighted his friends by stating that at one time he had been a membe: of the Illino's legis-

Creighton expected to be classed with the penurious members of the legislature, but if membels were bound to have newspapers he wanted the lowest sum. He looked at it as voting money into the pock ets of the members.

Sadler considered it for the benefit of his constituents. They should know what their representatives were doing, and many of them were not able to subscribe for

Allen, of Butler, wanted to know The Speaker stated that the last cers had been sworn in. GABE legislature allowed 20 copies to each

Harvey, of Furnas, suggested that the last legislature did many illegal

things.
Notwithstanding the old custom Allen was still opposed to the reso lution on constitutional grounds. This gentlemon declaimed against the resolution with great animation. Mr. Small was in favor of the resolution, and Loped the Democratic members would be successful

in "making a record." Walters, of Dixon, was sareastic. He represented his constituents, and they thought reading matter a good thing. His constituents did not pay heavy taxes; indeed, many of them were quite poor. He thought it would be a good thing He would take all the newspapers he could get, send them to his constituents, and the wealthier portions of the

State could pay for them.

Then Northrup took hold of the question. He expounded the Constitution, and talked about the Roman Emperors. He would like gical Institute founded by Dr. H. to send a newspaper to every one of R. Allen. his constituents. He thought that without newspapers his constituents would be like the Romans whose Emperor pasted his edicts so high that the people could not read them. Andrew Johnson never deferried the Constitution with more enthusiasm than did Judge Northrup defend that "glo-ri-ous" instrument to-day; all of which resulted in his favoring the resolution.

Moore, of York, said that if the Legislature would supply every man in the State with a newspaper who is unable to pay for one, it would be the best investment the State could make. He offered an amendment looking a long way in that direction, but it failed.

Wolfe thought the Democrats were carrying out their old policythat of keeping the people in ignorance. Wolfe and Creighton inacross the house at each other, but as no apples were hit, I will let the matter pass.

Bobbitt, of Cass, wanted his constituents to know what he did. Bear introduced a resolution pledging each member to send the the papers to those of their constituents who are unable to subscribe and it was lost. The original resolution, calling for ten copies, was at

last carried. Harrison, of Hall, introduced a resolution providing that the va rious newspapers represented in the House should be provided with all necessary stationery. The discussion had not proceeded far when J. T. Bell, of the Herald, obtained permission of the floor, and declared that such a resolution was not in a cordance with the wishes of the press; be considered it an insult to the papers represented there. The

resolution was then voted down A resolution ordering several hundred copies of the Governor's message printed, in the English, German, Bohemian, and Scandina vian tongues, was referred to a

special committee. The House then accepted an in vitation to attend the Hon. J. M. Woolworth's lecture before the State Bar Association, and adjourned until 9 o'clock Saturday morn-

The Senatorial Race-Hitchcock's Democratic Alliance Condemned by All Leading Republicans.

The Bread and Butter Brigade Tenacious, but Disconsolate.

Lincoln. Jan. 5 .- All day yesterday the House was kept in waiting for the report of the committee on vote," when the House adjourned rules. They assembled after dinner, but immediately adjourned until 10 o'clock this morning. They are now in session, and listening to the musical voice of Zediker, who is engaged in reading the rules. There are to be thirty standing committees. The Democracy has a little dozing to do on the canvasa of the vote, and it is probable that the House will waste considerable time in discussing that question. As the house has transacted no bus-

iness as yet, there are few real facts to discuss outside of the senatorial

Tom Kennard's alliance with the Democracy in the Senate day before yesterday, has created quite a little breeze. I am informed that Messrs. Baird and Griffith pronounced this act of treachery disgraceful in the extreme.

Probably such a spectacle as is now seen never occurred before in the history of this State. Here is Hitchcock, with a lobby composed of every federal offi-cer in the State of Neurasks, or nearly so, and in a Legislature with over eighty Republican major ity, who ever before heard of an open, undisputed coalition with the enemies of the party Hitchcock has done this, in defiance of all rules of party or decency, and expects and hopes to be elected by republican votes.

The resolution offered by Mr Spickwell, that the Legislature should can vass the vote of the executive officers of this State, came up this morning. Speaker Nance ruled the resolution out of order, on the grounds: 1st, That he as speaker, had received notice that such votes were to be canvassed; 2d, That the records of the last house showed that said votes had been canvassed; 3d. That the house is bound to take judicial notice of the canvass, and the custom of former legislatures. the fact that the present list of fli-

New York, January 6 .- Intimate friends of James Gordon Bennett say it is unquestionably a fact that Fred May has already received from Bennett an invication to a hostile meeting-probably in Canada---or that it is understood between the two that such a message is to be sent and received. Bennett is out of the city. It is understood he asked General Bichard Taylor, son ex-president Taylor, and a gentle man thoroughly conversant with such affairs, to act as his friend, and Taylor who has been lately staying in Washington has consented to perform that service.

#### A FALSE REPORT.

New York, January 6 .- It was reported last week that Coles S. Morris, a well known lawyer, was a defaulter. This was denied by a card published by Billings & Co., his business associates. It was stated by his physicians that he was suffering from mental derangement. It now appears he is a defaulter, having misappropriated trust funds amounting to a large sum. He ad mits his mental abberation as only a subserfuge to enable him as far as possible to settle the matter. The facts in the case appear to be as fol-

EXPECTORATION.

Is the act of discharging from the throat and chest matter that arises, from colds, instead of scattering and distributing it through the blood, and poisoning it. By thus assisting the Lungs, Throat and Chest, Dr. Green's Expectorant cures Colds, Coughs, Asthma, Bronchitis, Croup, Dyptheria, Whooping Ceugh and all affections of the Lungs, Throat and Chest, and the first stages of Consumption and Typhoid Fever. Its qualities are Expectorant, Sedative Pectorial and Alternative. It does not stop the cough as most preparations do, by their anodyne and astringent effects, retaining the mucous and offending matter in the blood and causing permanent disease of the Lungs, but it cures by loosaning the cough and assisting the lungs and throat to throw off the offending matter, which causes the cough, thus scientifically making the cure perfect, It at once alleviates the most distressing cold on the lungs, soothes and allays irritation, and breaks up Whooping Cough. No better remedy can be found for Asthma, Bronchitis, Croup and all affections of the Throat Lungs and Chest, and, if continued in use will subdue any tendency to Consumption, Lung and Typhoid Fever.

If the liver is torpid or the bowels constipated, a few doses of Dr. Green's Liver Pills will assist nature. No better cathartic can be found.

Rich Silver Ore Developments-Rapid Change of Ownership in the Flagstaff.

Alta, Utah, January 1 .- We have been having a terrible show storm, the worst since the winter of 1871 It commenced Sunday, the 24th in the Wahsatch range, especially in the canyons of the Cottonwoods, that means snow-slides; and we a vengeance. The first was on the 26th, when the trestle work and part of the blackmith shop near the new boarding house of the Iris tunnel were taken away. Next comes the reports of two slides down the canyon, taking away the shed of the W. & J. V Tramway in two places. And on

day evening news came that two men, Charles Stanti i and L uis Labrie, Frenchmen, were caught in a slide at the Beaufort mine, on the side of Bald Mountain, about two miles from town. It was after dark when the news came, but your correspondent started with a party of men to get them out. We found tuar ti e ra if of their cabin had been .y, c. ashing them under

snow. Labrie was found lying in his bunk partly undressed, and to all appearance had never moved. Stantini was binding over him, his hands raised ever his head as if he had heard it and started up trying to save himself. They were both well known here and respected. Saturday night two slides came down from the mountain on the south side of the town, one crossing the main street at the lower end, and only a few rods from the houses. The other not reaching the street at the upper end. Two slides are also reported on the Big Cottonwood side of the range, near the Reed & Benson mine, one taking away a portion of the tramway she I near the boarding house, and one breaking in the door of the lower ore house. Except the men mentioned above there are no raports of lives being lost.

A. A. Jackson, a prominent aloon keeper of Alta, and who has lately had a lease on the Yankton Blade mine, left here on the 20th to go to Salt Lake, to make a sale of ore, taking with him about \$1,600 worth of time checks belonging to himsel, and partner, which he had cashed at Salt Lake, and sold the ore for about \$4,000, and on the 23d he left Salt Lake for

Ogden, and has not been heard from since. Some of the men who have been working for him, have not had any pay for three mouths, and should he not be found, or the money recovered, the greater portion of the loss will fall on laboring men Mr. Jackson was well known and liked here, and almost every one had confidence in him. The Flagstaff, one of the largest

rather management qui'e suddenly a few days ago The stockholders reside in England, and through some mismanagement of the parties here who were in charge, the mine was run in debt, and it passed into the hands of the creditors until such time as the mine could be made to pay its indebtedness. The parties holding it have been taking out and shipping large amounts of ore, and it is claimed, have not only recovered the amount due them, but have been getting wealthy out of it. A few days ago, Mr. A G. Hunter, one of the largest owners in England, arrived in Salt Lake with full power to act for the other stockholders, and remaining in that city only 24 hours came up here with an attorney and the U S. Marshal, and stopping only to make out necessary papers, proceeded immediately to the mine, took them by surprise and obtained possession. It is said there are immense bodies of ore in sight and it is regarded as one of the best mines in the Territory.

The Reed and Benson, South Star

and Titus, Grizzly, Prince of Wales, and the Wellington, have all been taking out large quantities of ore, but on secount of the bad weather have not been able to ship. Should the veather get settled so our packers and teamsters can work, the coming month will be a busy time fyr them, and will show the largest shipment of ore ever made from our camp in the same length of time

A Reporter's Sketch of the Difficulties of the Late Indian Campaign.

Three Thousand Troops to Cover a Half Million Square Miles.

Cheyenne, W. T., January 4 -Gen. Crook arrived from the north

last evening and put up at the Inter Ocean Hotel; where he with a number of other distinguished officers, have assembled to participate, as members and witnesses of the coming court martial. While some Eastern papers and penny-a-line paragraphists and reporters, have seen fit to carp at, and find fault with Gen. Crook's Indian campaign, we of the West,

can better appreciate and understand the almost insurmountable obstacles and difficulties that General Crook and his command had to contend against and overcome. If Eastern papers would show a little more knowledge of the geography and topography of the region they so learnedly (?) talk about, it would be more to their credit. Gen. Crook's campaign extended over and through Wyoming, Montana and Dakota, and when we reflect that Dakota contains 221,-000 square miles, Montana 173,000 and Wyoming 110,000 square miles, it gives us some conception of the magnitude and extent of the marches and countermarches that his command had to make to either overtake or entrap the wily enemy. Here is a military theatre of 504,000 square miles, a trifle larger than Austria and Prussia, and only about 3,000 troops of all branches to guard it and meet the foe thereupen. It would tax the military skill of a Von Moltke or the genius of Napoleon the First to meet the contingencies of the "situation," with such meagre and inadequate materials and means; as were placed at the disposal of Gen. Crook for the prodiguous work to be done; and the only wonder is that the gallant General has been able to accomplish as much as he has already. The power of Sioux and Cheyennes, is certainly broken forever, and a summer camp ign will give the Indian war the final coup de grace Ail honor and praise say I, where both are due, and so well merited. Business still continues brisk, while the travel to the Black Hills is on the increase, not withstanding the recent heavy now storm Church revivals, sociables, balls and private parties is the order of the day j st now.
